

Welcome to the showcase of
Y5 space camp!

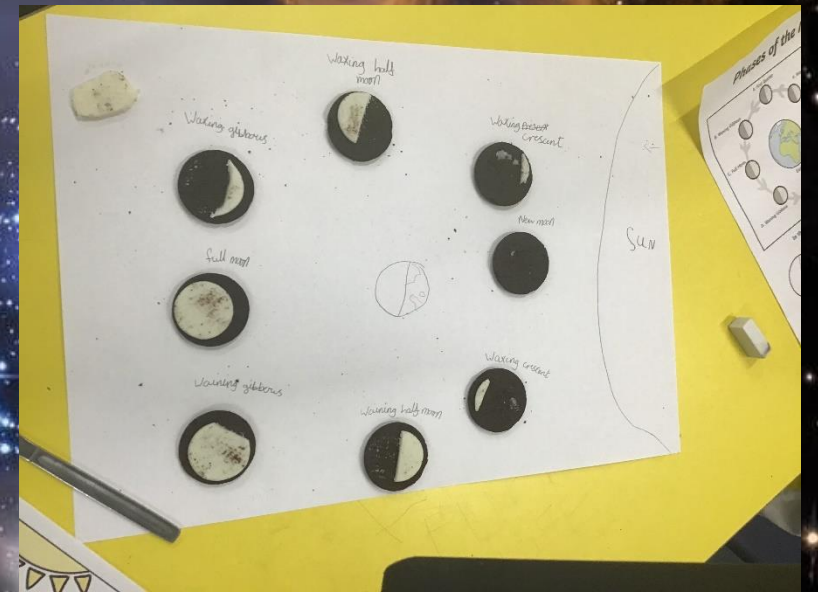

We arrived at 6pm where we were split into our houses.

Our tents were ready to begin our adventure as astronauts. We had four activities to complete our mission. They were:

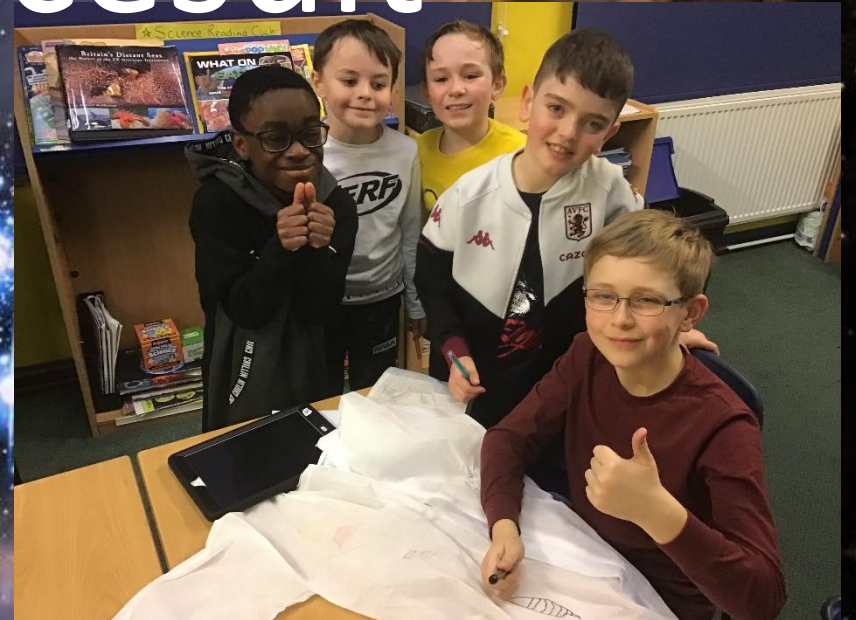

using Oreos to make the Phases of the Moon

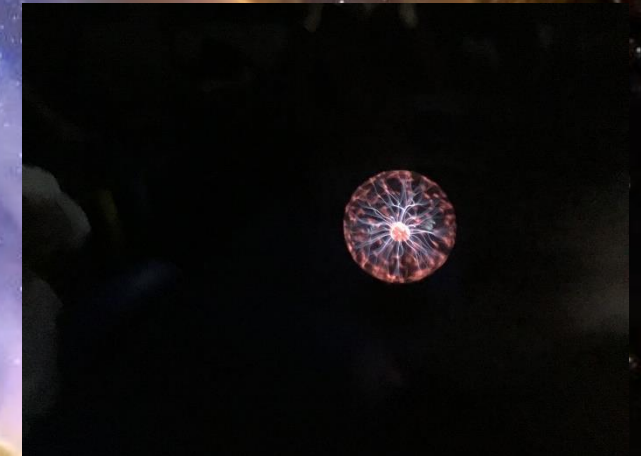

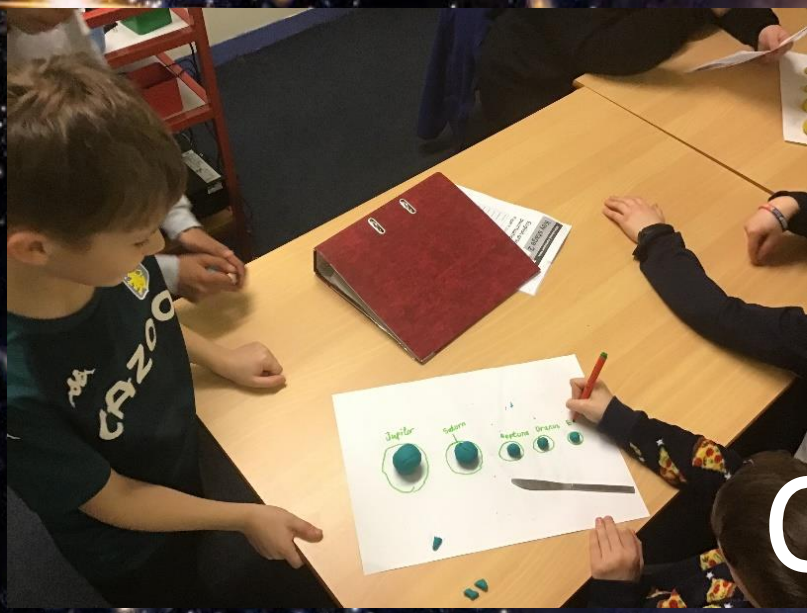

Design a Spacesuit

An Astronomer visit from Warwick University

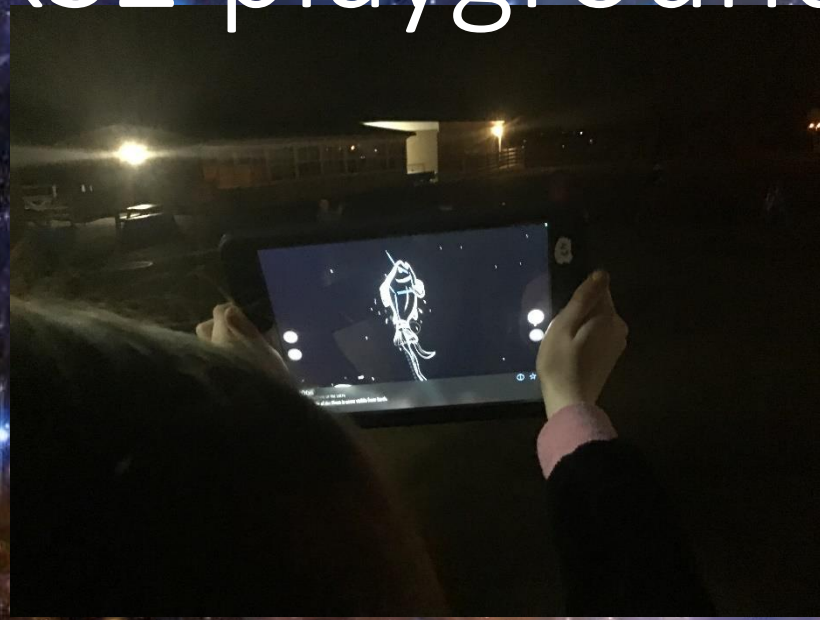

Creating Planets and ordering them by size

Star Gazing on the KS2 playground

A Poem about the Solar System

Would you like to ask us
astronauts any questions?
